## EDUCATION

| | |
|---|---|
| 12/2018 – 09/2020<br>Brampton, Canada | **Computer Programming Diploma,** Sheridan College<br>The program specializes in program development strategies(using object oriented modelling), database design and database administration). |

## SKILLS

**Languages**
*Java, JavaScript, SQL, Python, Php*

**Tools**
*VS Code, Eclipse, Android Studio*

**Database**
*MySQL, MS SQL Server, Oracle, MongoDB*

**Frameworks**
*React JS, Node JS, Angular*

**Other Skills**
*JPA, Tableau, Git*

**Soft Skills**
*Communication Skills, Team player, Problem Solving*

## CERTIFICATES

**Udemy**
*Web development bootcamp*

**FreeCodeCamp.org**
*Back End Development and API's*

## PROJECTS

| | |
|---|---|
| 09/2023 – 09/2023 | **Netflix Clone,** React, Firebase, TMDB API<br>• Created a visually appealing and responsive user interface that closely mimicked the Netflix design.<br>• Leveraged React.js for building modular and reusable components, resulting in a well-structured and maintainable codebase.<br>• Implementing a dynamic content loading mechanism to efficiently display movie and TV show data from a TMDB API, optimizing performance and user experience.<br>• Utilized third-party libraries and APIs to enable video playback.<br>• Conducted Comprehensive testing and debugging to guarantee the reliability and functionality of website. |

| 08/2023 – 09/2023 | **To-do List App,** MongoDB, Express, React, NodeJS |
| | • Implemented a RESTful API using Node.js and Express.js to handle CRUD operations for tasks, ensuring efficient data management. |
| | • Designed and developed a user-friendly front-end interface using React.js, featuring task creation, editing, deletion, and dynamic updates without page refresh. |
| | • Employed MongoDB for data storage and retrieval, optimizing the application for scalability and performance. |
| | • Implemented error handling, validation, and data sanitization to improve the robustness and reliability of the application. |

| 08/2023 – 08/2023 | **Tesla Clone,** React ⧉ |
| | • Successfully recreated the Tesla website's user interface and interactions, demonstrating strong front-end development skills. |
| | • Utilized modern CSS techniques, such as Flexbox and CSS Grid, to ensure a responsive and visually appealing design across devices and screen sizes. |
| | • Employed React Router for smooth navigation and a single-page application (SPA) experience. |
| | • Conducted rigorous testing and debugging to ensure cross-browser compatibility and optimal performance. |

| 07/2023 – 07/2023 | **Sneaker Website,** Html, CSS, JQuery, JavaScript ⧉ |
| | • Crafted a pixel-perfect and mobile-responsive design using HTML5 and CSS3, ensuring a seamless user experience across devices and screen sizes. |
| | • Employed modern CSS techniques, including Flexbox and CSS Grid, for efficient layout and styling. |
| | • Enhanced user interactivity with JavaScript for features like image sliders, hover effects, and smooth scroll animations. |

## PROFESSIONAL EXPERIENCE

| 12/2021 – 05/2023 Nipawin, Canada | **Pizza Hut,** Assistant Manager |
| | • Assisted the General Manager in managing all aspects of the restaurant, including staff training and development, food quality and sanitation. |
| | • Assisted in developing and implementing marketing strategies to increase sales and profitability. |
| | • Handled customer complaints and inquiries in a professional manner. |
| | • Monitored and evaluated employee performance, providing feedback and coaching when necessary. |

| 03/2021 – 12/2021 Nipawin, Canada | **Subway,** Assistant Manager |
| | • Managed a team staff of approximately 4 to 12. Assign, oversees and evaluates work. Recommends promotion, transfer, or termination of employees. May conduct written and verbal staff evaluations. |
| | • Performed paperwork duties and assisted with product orders and inventory as needed. |
| | • Assisted with planning of special events and promotions. |

## INTERESTS

**Reading Books**, **Driving** *(Exploring New Places)*, **Listening Music**, **Cricket**
